

# Our Impact

We're proud to work with the Arbor Day Foundation and over the last four years we've planted a lot of trees together. Let's take a look at the difference these trees have made and take a peek into their future impact.

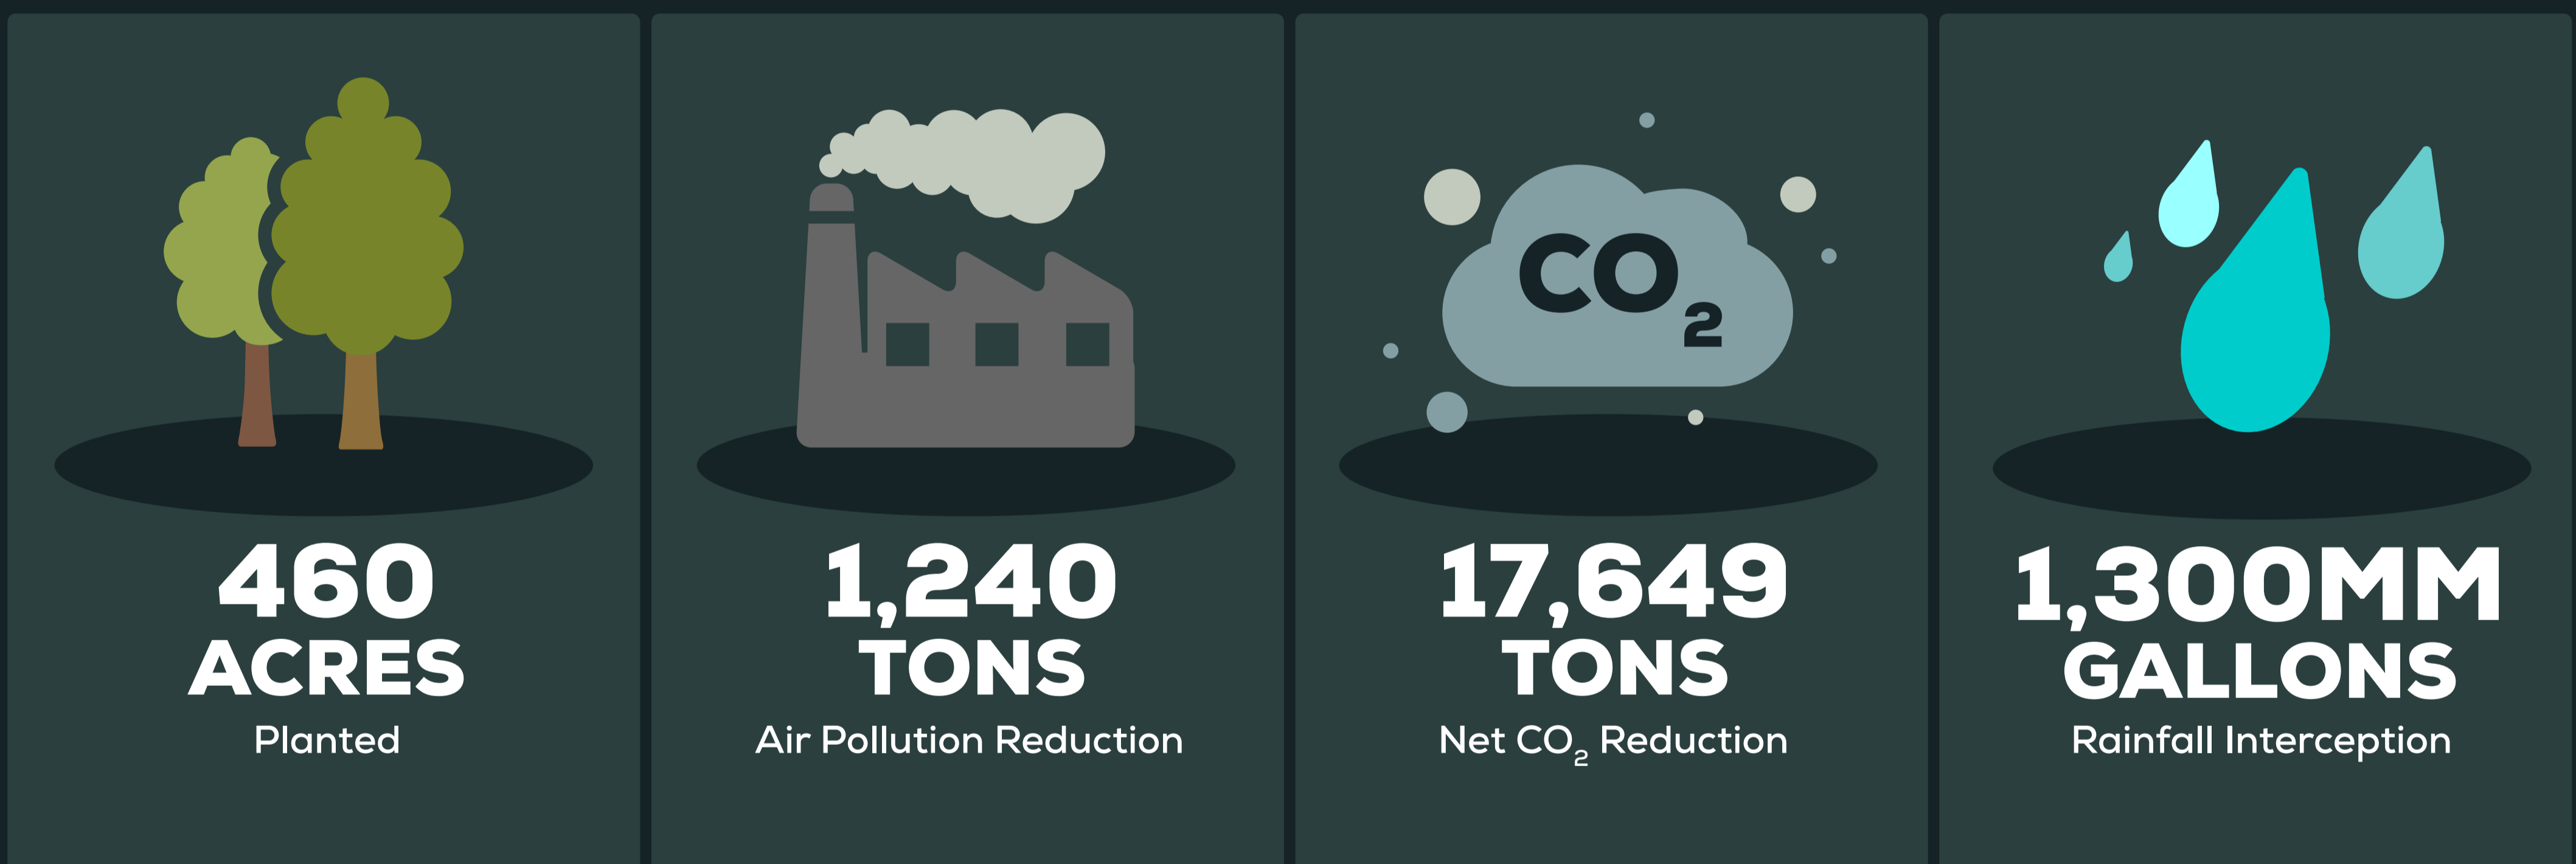

Over 40 years, 250 acres of trees planted in 2017 will save:

4 Year Milestone!

\*Projected 40-Year estimates based on Cost-Benefit tables from the U.S. Forest Service in the Coastal Plain Climate Zone.

## 2014 - 2016 Key Takeaways

## 2014 - 2016 Year by Year Data

Year	Location	Acres Planted	Air Pollution Reduction (Tons)	Net Carbon Dioxide Reduction (Tons)	Rainfall Interception (Gallons)	Benefits
2016	Malheur National Forest	250	340	9,380	460	Restoring forest areas ravaged by wildfire
2015	Pike National Forest	186	405	5,045	549	Improved watershed conditions
2014	Lake Superior State Forest	24	495	3,224	291	Created habitat for the endangered Kirtland's warbler
